

Marshall Team Meeting
June 6, 2005

DA01/D. King – Dr. Griffin's visit on June 3 was a great day. Thanks are extended to all for a super job. The Question and Answer session went very well. I believe Dr. Griffin left with the right impression regarding Marshall. I am extremely encouraged relative to Marshall's future and the role this Center will play.

General Michael Kostelnik will visit the Center on June 7 and 8, and Ames Research Center personnel will be visiting Marshall on June 20 and 21. The Paris Air Show is scheduled for June 13 through 18, and Ms. Henderson will be attending.

QD50/K. French – Ms. French presented a safety moment briefing on Industrial Safety. Charts used in this presentation can be found at Inside Marshall.

QD22/L. Clark – Ms. Clark presented a briefing on the External Tank (ET) Non-Destructive Evaluation. Charts used in this presentation can be found at Inside Marshall.

COLSA/T. Wickline – Mr. Wickline presented a briefing on a strained back lost-time mishap that occurred in April, which was related to improper lifting of a heavy load. Charts used in this presentation can be found at Inside Marshall.

AS60/D. Thaxton – Mr. Thaxton reminded everyone of the upcoming annual Center Health Walk scheduled for June 15, 2005, at 9 a.m. Shuttle service will be provided, and our goal this year is 600 walkers. Last year we had 478 walkers, and our goal was 500. Please encourage all personnel to participate in this event.

PS01/S. Beale – Contracting Officer's Technical Representative (COTR) training is scheduled for this week. You can sign up through the NASA Online Registration System (NORS) or call my office.

XD01/A. Whitaker – The Science Directorate is going to hold its Awards Day Ceremony tomorrow, June 7.

DD01/C. Chitwood – We have Goddard personnel visiting Marshall on Wednesday, June 8. I, along with the propulsion team, will visit Glenn Research Center on Thursday, June 9.
